

## YSGOL BRYNREFAIL

# CATERING AND HOSPITALITY YEAR 11 G.C.S.E.

Life just isn't fair! Its midweek and Saturday is far away but we still have to walk past the Home Economics rooms, noses twitching and being teased by the scent of the spices.

Its all down to the G.C.S.E. crew from year 11 who are trialling experimental work as part of their course. Experimenting through using foreign ingredients to

prepare meals and as you can see from the photographs having great success.

Therefore we had to suffer the aromas of the turmeric, ginger, garlic, cardamom and cumin, close our eyes tightly, daydream and whisper quietly ' Saturday will come'.

Enough room left for desert? Well how about crème brûlée?

And the New Year diet? Shattered midweek mate!
