

YSGOL BRYNREFAIL

GWENLLIAN ROBERTS CHIEF RECYCLING OFFICER

At the request of the Eco Schools' committee Gwenllian Roberts, Chief Recycling Officer, Gwynedd attended a recent meeting. The committee is attempting to adjust the present school arrangements trying to create a more Eco friendly environment and also working towards the bronze, silver and gold standards.

The information gathered from Gwenllian is the starting point on the journey towards achieving standards and she explained what could be achieved in conjunction with Gwynedd Recycling.

The committee will now write an Action Plan focussing on things we, as a school can achieve, from switching off unnecessary lighting to buying recycled paper.

The committee also envisage playing a role within our home community of Llanrug.
