INDUCTION - THE PARAMEDIC

As part of the programme of Induction arranged by Mrs Catrin Wyn Jones, Co-ordinator of the Baccalariate post 16 , Darren Lloyd, Paramedic with the Health Authority gave an excellent presentation.

Paramedics are the senior ambulance service healthcare professionals at

an accident or a medical emergency. Working on their own or with an emergency care assistant or ambulance technician, they assess the patient's condition and then give essential treatment.

When they arrive at the scene, they will assess the patient's condition and take potentially life-saving decisions about any treatment needed before the patient is transferred to hospital. They then start giving the treatment, with the assistance of the emergency care assistant or ambulance technician.

The response to him from year 12 said volumes about Darren Lloyd's effectiveness
