YEAR 12 WORKING !!!!

Don't take fright in reading the title – year 12 students are usually industrious at all times. However, during the week commencing 29th March 2010 they experienced the world of work in placements throughout Gwynedd. With the support of Careers Teacher Mr Howyn Jones and their sixth form teachers a challenge was set to contact suitable employers in Gwynedd and arrange a workplace their over the period of a week. These arrangements were made, in the minority of cases,verbally, but the vast majority by e-mail.

So, from the First Hydro Power Station in Dinorwig to Babinogi Nursery in the Victoria Dock, Caernarfon, from the Records Office in Caernarfon to the towers and turrets of Caernarfon Castle year 12 students tasted the world of work.
